ENGLISH LANGUAGE

PAPER III

Do not open this question booklet until you are told to do so. While waiting, read the following carefully:
 Use HB pencil throughout.
 Where your answer sheet is not customised, provide the following information:

 (a) In the space marked *Candidate's Name*, write your surname in capital letters followed by your other names.
 (b) In the space marked *School Name*, write the name of your school, and in the space marked *Subject Name*, write English Language III.
 (c) In the box marked *Subject Code*, write the digits 1013 in the spaces. There are numbered spaces in line with each digit. Shade carefully the space with the same

numbered spaces in line with each digit. Shade carefully the space with the sam number as each digit.
(d) In the box marked *Registration Number*, write your registration number in

the spaces at the top of the box. Shade the corresponding numbered spaces in the same way as for Subject Code.

An example is given below. This is for a candidate whose name is GAMBO Bamidele Uche, with serial number 0010, registration number 8765432100BD, and who is taking English Language III (1013).

ROW PAPER III

3/20

Answer all questions.

Each question is followed by five options lettered A to E. Choose the correct option for each question and shade in pencil on your answer sheet the answer space that bears the same letter as the option you have chosen. Give only one answer to each question and erase completely any answer you wish to change. Do all rough work on this question paper.

An example is given below:

Traffic congestion means

a lot of traffic.
free flow of traffic
parked vehicles.
traffic accident. N
traffic calming.

The correct option is 'a lot of traffic' which is lettered A. Therefore, answer space A would be shaded as shown below:

[D]

[C]

11

In the following passages, the numbered gaps indicate missing words. Against each number in the list below each passage, five options are offered in columns lettered A to E. Fill each numbered gap with the most appropriate of the options (Nos. 71 - 100).

PASSAGE A

Driving at a very high -71 – makes the -72 – and his -73 susceptible to -74 –. It also makes the driver lose control of the -75 – at the slightest mistake. Some drivers speed beyond limit while in a hurry to catch up with time or appointments. -76 – bus drivers are well known for this as they try to meet up the daily account to the vehicle -77 –. In doing this, some of these drivers tend to forget that their -78 – could burst or that they could have -79 – failure.

The thought among some drivers as experts and masters of the vehicles often makes them -80 - to a disastrous end. At times, -81 - and - 82 - can cause this, making the driver to speed into trouble. Oftentimes, drivers do not concentrate while -83 -. They engage themselves in talking or quarrelling with passengers, eating, gesticulating, waving hands at passing friends, smoking cigarettes and most times, changing radio stations or cassettes. These acts make the driver to lose -84 - and anything can happen in a split second thus leading to accident.

Overtaking in a careless and reckless manner coupled with poor judgement contribute immensely to road accidents. So, it is better to drive slowly (within speed limit) and get to one's -85 - safely than otherwise. To be forewarned is to be forearmed.

PASSAGE B

Malaria, though not getting as much publicity as cancer or AIDS, is nonetheless the world's major -86 – disease. There are about a hundred million -87 – of -88 – each year and more than two million die of the disease.

The disease is caused by a - 89 - known as -90 - which is carried by the female <math>-91 - mosquito. When the infected mosquito -92 - a person, the parasite enters the bloodstream and quickly invades the -93 -. There, the parasite begins to divide. It then goes into the red blood -94 - and multiplies quickly. The -95 - of the disease are then felt by the -96 -. These include repeated attacks of shivering, high fever, headache and profuse perspiration. Travellers to malaria -97 - countries are required to take -98 - to safeguard themselves.

Our government is concerned with the problem of mosquito -99 – in our cities. Mosquitoes do not only spread malaria but also cause -100 – fever.
